

BMP/SWPPP INSPECTION

Murow | CM's BMP/SWPPP and Reporting Service provides our clients with a “hands-off” reporting procedure. This relieves our clients compliance worries and confirms their Storm Water Pollution Prevention Plan (SWPPP) and Best Management Practices (BMP) are in appropriate configuration for any rain events or sudden mandated inspections. Our expertise in storm water management, and our in-house Qualified SWPPP Practitioner (QSPs) allows our clients to focus their time on the project at hand.

Be sure to contact **Murow | CM** prior to any rain events to ensure compliance and avoid delays in construction. Our BMP/SWPPP Inspection and Reporting Service can also be aligned with our other services such as:

- Detailed BMP Inspection & Documentation
- Maintain the Onsite SWPPP Book per State Regulations
- Create & Manage the Rain Event Action Plan on RL (Risk Level) 2 and RL 3 Sites
